PROJECTS

Grover Landing Page (07/2023 - Present)

- Convert Figma Design to React APP using TailwindCSS.
- Beautiful Design
- **Link:** <https://grover-landing.netlify.app/>

HRMS (05/2023 - Present)

- Employee Management System to streamline the organization and enhance HR administration.
- Role-based authentication system to ensure data privacy by assigning predefined permission levels, allowing authorized personnel to access specific records and functionalities.
- Leave Management module that calculates and manages employee leave balances.
- Payroll Management System with Allowances and Deductions Calculation: Automate payroll processing and accurately calculate allowances (e.g., bonuses) and deductions (e.g., taxes) for seamless salary management.
- Recruitment System to simplify hiring processes by posting job vacancies and collecting candidate information, including PDF resumes, for efficient review and shortlisting.

Switchive Frontend (07/2023 - 07/2023)

- Convert Figma Design to React App using TailwindCSS.
- Beautiful Design
- Implemented Pagination
- **Link:** <https://switchive.netlify.app/>

Portfolio Web Application (04/2023 - 05/2023)

- Showcase projects on any device with a visually appealing and mobile-friendly design.
- Display project details, skills, and contact information for a comprehensive portfolio view.
- Enable direct communication by integrating an email sending feature on the portfolio website.
- Secure access to resources with a REST API incorporating JWT authentication.
- Easily create, update, and manage project information, including images and descriptions.
- **Link:** <https://zaiddev.netlify.app/>

Punjab University Result Checker (12/2022 - 01/2023)

- Enter roll no and extract previous semester results easily.
- Upstash Redis database for performance Optimization with efficient caching.
- Build a responsive and visually appealing user interface using ReactJS and TailwindCSS.
- Scrape Punjab University's result website and serve results to the frontend for display.
- **Link:** <https://pureresult.netlify.app/> **Testing Roll No: 28347**
